PSI supports your Vestas V27 component repair needs

PSI Repair Services is the world's largest independent component repair company for electronics, hydraulics, robotics and precision mechanical assemblies. Our repairs save customers up to 70% versus the cost of buying new components from the OEM. All wind energy component repairs come with a **free evaluation** and **performance test**. For optimal peace-of-mind, PSI offers the most comprehensive **engineering services** in the industry, featuring state-of-the-art diagnostic equipment, such as the **Cotas 4400 Series Test System**, which provides powerful failure analysis, that can be used to make more informed maintenance decisions. In many cases, PSI's engineering team can enhance the performance of a faulty OEM component with superior, more efficient technology to further extend the component's life. For unsalvageable and obsolete components, PSI offers component remanufacturing services that are second to none. In addition, PSI offers emergency services for customers that need to get their critical systems back up and running again as quickly as possible.

Components we repair include:

Cotas	CT1118	Digital Output	Cotas	CT2128	A/D Converter
Cotas	CT1124	Power Supply External	Cotas	CT2129	A/D Converter
Cotas	CT1133	Digital Input	Cotas	CT2132	Triggering Thristor
Cotas	CT1153	Digital Output	Cotas	CT218	Operator Panel
Cotas	CT206	Measure Box	Cotas	CT3305	Power Supply Internal
Cotas	CT207	Operator Panel	Cotas	CT4401	Processor
Cotas	CT2112	Communication Module	Cotas	CT4402	Processor
Cotas	CT2115	RS422 Serial Communication	Cotas	CT4493-9	Rack
Cotas	CT2120	D/A Converter	Vickers	EEA PAM Series	Power Amplifier

PSI also repairs Baluff transducers, yaw and pitch motors, proportional valves, and light-duty gearboxes.

PSI's functional test system simulates down-tower and up-tower communication and component interface. PSI can also identify and correct "watch dog" errors.
